Building a network of Science frontier

ASRIC to launch a call for African academies of Science/ African Research institutions that have a common interest in one of the thematic areas under ASRIC Research priority areas to form Cluster of Research.

This cluster of research to mobilize technical and financial resources within the cluster and outside its members. It is an opportunity for its members to build on each other comparative advantage

What are the modalities for ASRIC Research Cluster?

- Launching the Call and the call administration;
- Priority areas and priority sectors under the call;
- Co-financing models including (Direct financing and indirect financing “contribution in kind”);
- Incentives that t encourage academies and institutions to form clusters and to work together;
- Commitment we are expecting from the cluster to ASRIC i.e. the output of research and the research findings etc

Concept note

Recommendation

- The Bureau requests the Scientific and Innovation Committee and the Resource Mobilization Committee with the support of the ASRIC Secretariat to actualize the modalities expressed below:

Modalities for ASRIC Research Cluster

- Launching the Call and the call administration;
- Priority areas and priority sectors under the call;
- Co-financing models including (Direct financing and indirect financing “contribution in kind”);
- Incentives that encourage academies and institutions to form clusters and to work together;
